The First Hundred Years

(AN EDITORIAL) -Today-February 12-is Lincoln's birthday. However, the date, in addition to marking the birth in 1809 of this wartime president, has another significance to the people of Corsicana and Navarro county.

February 12, 1848-98 years ago-by an act of the second Legislature of Texas, Thomas 1. Smith, Wm. Henderson, Ethan Melton, James B. Johnson and James Riggs, were appointed commissioners "to select the most suitable portion of the survey marked on the man of the Robertson County Land District in the name of G. A. Campbell in the neighborhood of Richardson's settlement, and the point thus selected shall be and the same is hereby declared the county seat of Navarro county to be called by the name of Corsicana, and the various courts shall be held thereat after March 1, 1848."

Two years from today — in 1948 — Corsicana will have been the county seat of Navarro county 100 years.

Many of the projects now under discussion for the building of a future Corsicana will have been completed within the next two years. What would be more fitting than for the citizens to hold a big celebration in observance of the centennial of the city as the county seat and to mark the completion of the proposed plans for building a modern Corsicana?

Why not call the observance the Jose Antonio Navarro Fiesta -Navarro county is named in honor of this Texas patriot and statesman and the city is named after the birthplace of Navarro's father, the island of Corsica. Navarro's statue has a prominent place on the courthouse lawn.

The proposed community center with an auditorium seating several thousand could be completed within the next two years. Surely the farm-to-market roads will be a reality by that time. If the street widening projects, sewer extension and expansion of the city limits are not completed in the next two years they never will be.

Twenty-four months will bring many changes in this com-

If Corsicana expects to accomplish anything in building for the future, the next two years must give the answer.

Planning the Jose Antonio Navarro Fiesta for 1948 furnished an incentive for making our building program something more than just talk. Such a celebration could be made into an event of great interest and value to the community. But the planning

should start now.

If you think this idea has merit—well—let's get going.

LONDON, Feb. 11.—(P)—Two Arab states served notice today they would fight to the last ugainst New York as United Nations headquarters, objecting to "some political influences" there. Iraq and Saudi Arabia both protested the New York selection as a special committee of the United Nations general assembly slowly neared the point of voting on a proposal that New York should become temporary headquarters, with a permanent site to be picked from the Westchester-Fairfield counties region to the northeast. The Arabians did not define the political influences they disliked. Their chief concern expressed in behind the scenes conversations, however, was that New York has a large Jewish population. The Arabs and Jews currently are in controversy over Palestine. Abdul Moulmm Al-Baih of Saudi Arabia tolg the committee shortly before it adjourned until 4 p. m. J. M. TATUM SAYS **ALL WEATHER ROADS** ARE BADLY NEEDED

"We want all weather rolles and we are willing to pay for them."

J. M. Tatum said Monday when he called at this office. "We know that the proposed farm-to-market road system will not be handed to us as a gift—somebody will have to pay and we are ready to pay our share."

pay our share."
Tatum resides between Drane and Dresden and receives his mail on Borry, Route 1. He said that a majority of the residents in his community are in favor of all weather roads and are ready

all weather tones and are teady to vote bonds to secure the farinto-market roads.

"The saving in repair bills on nutomobiles and trucks would pay for the roads in a few years, was the opinion expressed by Tatum." I am ready to do anything necessary to get the roads and a majority of my neighbors feel the same way."

same way."

Petitions are now being circulated in every section of the county seeking a county-wide mass meeting for the purpose of discussing the farm-to-market program and to arrive at some means of securing the proposed road program without delay.

The new Willys civilian Jeep will begin arriving in volume ed operation early in January after several weeks' shutdown due to a supplier's strike.

Mr. J. A. Penney expects enough Jeeps in February to start filling his backlog of orders taken during the shutdown, and anticipates a steady rise in production to take care of new orders.

"The Jeep is the first of a complete line of Willys motor units which we will sell and service this year," said Mr. J. A. Penney. "Following the Jeep will come a vehicle closely resembling the station wagon, but incorporating new concepts and features of design never before offered in a vehicle of this type. Next will be a new light truck in four conventional body types on the same chasis, followed by a larger commercial chassis of heaver load capacity. Rounding out the line will be a new and unique low-cost passenger car."
